Rigel 230V

Mounting profile 2m

LED light rail/LED strip

A galvanised steel installation profile for Rigel LED strips. Profile length is 2,000 mm. The profile ensures that the strip is installed straight and that it remains in place. The profile has 12 holes for 3.5×20 countersunk screws, at intervals of 180 mm. The end caps remain outside the profile.

Mounting profile 2000X17 mm for RIGEL LED strip. Galvanized steel.

Stocked: Yes
